

Ek Mouka – Udaan with Ahmedabad Municipal Corporation :

Infact, CAP has been the first entrant into the skill development schemes of the government in Gujarat. The journey of skill development programmes for the state government of Gujarat and CAP began together through the Ek Mouka – Udaan programme, an initiative by the Ahmedabad Municipal Corporation. Under this initiative, CAP had trained and placed over 500 young urban school drop outs in partnership with the local NGO. The partnership with the NGO was to leverage the community links and in the process build its capacity to implement the programme in the next phase.

The success of the Udaan programme led to formation of the scheme called **Umeed** by the Gujarat Urban Development Authority in the year 2006. CAP was the consulting partner in the formulation of the guidelines for the Umeed project and one of the first implementing partner of the project.
